Trail Masters report Fall 2008

We have had a busy Fall and still more trail work to go! We started with brush cutting, re-decking projects, and replacing existing culvert pipe with larger pipe where needed. We still have a few trouble spots but overall things are looking good! A final project in the works before snow flies is the cutting of some new trail just north of Rt. 4. When completed it will eliminate a lot of the wet areas and hopefully be a much better trail with less confusion as to where the trail actually goes!

Three of us attended the NHTA Trail Masters Meeting that was held in Plymouth NH . We now have two more certified groomer operators! The meeting was very well attended. The club is ALWAYS looking for volunteers to do trail work. Please call if you have some time to volunteer on weekends or even during the week. We can always find a project that fits your abilities . I can be contacted at (603) 548-0515.
